

**NETWORK** This SIM card enables you to access the mobile network provided by the [osmocom.org](http://osmocom.org) project. Look out for the network 262 (MCC) 42 (MNC).

**USAGE** Just insert the SIM card into your phone and you should be good to go! To choose a specific phone number, register an extension on [eventphone.de](http://eventphone.de) and dial the generated token.

You can also call DECT subscribers and vice versa. Dial #100# to see you current extension.

**HELP** In case of unexpected problems or just out of curiosity, swing by the GSM room, next to the POC.
