

NETWORK This SIM card enables you to access the mobile network provided by the osmocom.org project. Look out for the network 262 (MCC) 42 (MNC).

USAGE Just insert the SIM card into your phone and you should be good to go! To choose a specific phone number, register an extension on eventphone.de and dial the generated token.

You can also call DECT subscribers and vice versa. Dial #100# to see you current extension.

HELP In case of unexpected problems or just out of curiosity, swing by the GSM room, next to the POC.
